

EXCITING THINGS ARE HAPPENING AT LAKESIDE!

Parking Lot Construction

We are very excited to have a newly remodeled parking lot. They are still doing the finishing touches, but the traffic flow is now following the parking lot design. Thank you for your patience during the construction process. We would also like to thank you for your continued daily patience in the parking lot. We have so many gracious, helpful families here at LPA Lakeside and we appreciate you.

New Multipurpose Recreation Center

Construction is well underway on our new MPR. This will also add several new bathrooms and a new kitchen to help us serve our Lakeside students/families. We are anxiously awaiting the completion.

Gym Update

We had a serious plumbing leak over the weekend a few weeks back, which completely bowed our wooden gym floor. We are currently in the demolition process. When the wood is completely removed, we can use the concrete floor on the gym until the new floor installation begins. Luckily, our insurance is going to pay for the majority of the cost. We are looking forward to having our wonderful gym back in perfect working order.

Thank you for being so helpful and gracious during these construction periods. It is stressful to have three areas simultaneously under construction. It was not planned to happen this way, but Lakeside will be better than ever when all of these areas are completed. We are blessed to have such amazing families in our school community.
