

Dear Families,

During this time, we are working together and finding solutions to continue servicing the students and providing them both with education as well as resources such as food and additional supports. We know this is a stressful time for you as parents and want to make this as easy as possible. Our schools have been collaborating to look at the materials we have in place and finding ways we can get your students the things they need, without creating more of a burden on you.

Many of our schools will be providing work packets and/or online resources you will be able to have your students work on while they are home. In addition, most of our schools will have breakfast/lunch bags that can be picked up at the school. We realize that you may live closer to a District school, so we will make the list of schools in your area that are also serving meals available to you. Please check your school and class DOJO's.

In the event that schools are closed for a longer period of time, we are working on finding creative ways where we can help ease the burden for our families. Many teachers have asked about delivering both materials and meals directly to you, so you are not overwhelmed with having to come to the school everyday. We know this is a great hardship on you, and we are spending everyday to find ways to help support you.

Our teachers and staff love your children and will do whatever it takes to make sure we are all a part of the solution. In the meantime, please keep your children at home.

Stay safe,

Jackie Trujillo
